Landowners considering enrolling in CREP and existing CREP participants are invited to join us for these tours. See a variety of installed conservation practices and learn about proper maintenance from local experts from the Natural Resources Conservation Service (NRCS) and the Farm Service Agency (FSA).

We will see:
- Riparian buffers
- Cool season grasses
- Warm season grasses
- Grassed waterways
- Heavy use areas
- Watering troughs
- And more!

Tours will occur in spring and be repeated in August to highlight seasonal changes in these practices. Attend one or as many as you want.
